Summary

Full-Stack Developer with expertise in **React.js, Next.js, TypeScript, and Node.js,** building scalable and high-performance applications. Experienced in **REST APIs, WebSockets, CI/CD pipelines, and cloud deployment**. Strong problem solving skills in **data structures and algorithms**, with a passion for providing maintainable and secure code. Proven track record in team collaboration, authentication, security and database management **(MongoDB, Prisma, MySQL)**.

Education

Chandigarh University — *Mohali, India*
Bachelor of Engineering in Computer Science and Engineering — *Aug 2022 – Present*
- CGPA: 7.45/10

Guru Nanak Dev Public School (CBSE) — *Rampur, Uttar Pradesh, India*
Intermediate — *2020 – 2021*
- Percentage: 87.6%

Guru Nanak Dev Public School (CBSE) — *Rampur, Uttar Pradesh, India*
Matriculation — *2018 – 2019*
- Percentage: 87%

Projects

HealthFolio – Healthcare Website — Github
Next.js | TypeScript | MongoDB | Prisma | Socket.io — Sept 2024 - Present
- We are developing a **full-stack healthcare platform** in Next.js & TypeScript.
- Improving **physician-patient communication** via **real-time chat (Socket.io)** and **automated appointment scheduling**.
- Stores medical history of patients for the past **3 months.**
- Enhanced security with **role-based authentication (Auth.js)** and reduced appointment no-shows by **30% through real-time notifications.**

QR Code-Based Food Ordering Website — GitHub
Next.js | TypeScript | MongoDB | Prisma | Stripe — Jun 2024- Dec 2024
- Developed a **web-based food ordering system** where users can **scan QR codes to place orders and make payments.**
- Implemented **Stripe-based payment** for secure and seamless payment processing.
- Managed the database using **Prisma and MongoDB** to store and update menu items efficiently.

Technologies & Skills

Programming Languages: TypeScript, JavaScript, C++, C, Java, SQL, Shell Scripting
Frameworks & Libraries: Next.js, React.js, Node.js, tRPC, Prisma, Tailwind CSS, Shadcn
Databases: MongoDB, MYSQL, AWS S3
Version Control: Git, GitHub
Tools & Technologies: Docker, CI/CD, Tauri, Electron.js, Figma, Linux, Vercel, OAuth, Postman
Soft Skills: Leadership, Teamwork & Collaboration, Creativity & Innovation, Time Management, Problem Solving

Achievements

- **1st Runner-up** in **DevCreate Hackathon** organized by **Google Developer Club**; led a team of 4 to build a **Project Management Website** and contributed as a **Frontend Developer**, winning **out of 100+ teams.**
- Achieved **Top 2% rank** in the **SWAYAM Cloud Computing course** among **10000+ learner,** earning the prestigious **DLL SWAYAM Excellence Award**.
- Solved **200+ Data Structures and Algorithms (DSA) problems** across multiple coding platforms.
